

“The most valuable resource that all teachers have is each other. Without collaboration our growth is limited to our own perspectives.”

- Robert John Meehan

Education has always been a corner stone of society, the pillar on which the bulwark of human existence rests, the leading light as mankind made his way in quest of the unknown. Every educationalist strives to instill in their students a sense of virtue and wisdom, sensitivity to the needs of others, the skills, the attitude and habits that would help them explore and excel a quest for knowledge and the power of action. All of these would propel each one to an all important goal – Excellence. The International School Award journey **initiated opportunities** to respond to emerging patterns and initiate action **enabling positive change in our school culture and student's mind set.**

“Before something happens in the world, it must happen in your mind.”

- Anthony Robbins

The ISA endeavor was a beautiful depiction of the vision created by our students and staff and how they have been **successful in soaring our school towards new horizons and greater epitomes.** The activities undertaken bears witness about our **students being groomed into wholesome personalities** who don't just chase their dreams but tackle them into the ground to actually live them. As rightly said by **Aristotle** ,

“We are what we repeatedly do. Excellence then is not an act but a habit.”

Being a part of the ISA **opened up new avenues** to delve deeper into the true purpose of education by **giving our students opportunities and an environment that is positive, inspiring, challenging and stimulating.** Students were able to follow their bliss, blaze new trails, open new doors and **shape up a winning attitude** that is indispensable for success in all aspects of life.
